Installing the Strainer

Your strainer should be installed by a licensed plumber. Use the screw to tighten the main drain body (from underneath sink) and the stainless steel strainer (from above the sink) into place. Sealants are not required. Install the basket on top of the strainer.

Stainless steel basket
Removable for cleaning and general use

Fixing screw

Stainless steel strainer
Insert in rubber seal

Rubber seal
Insert this into sink hole

Rubber gasket
Inserts into main drain body

Main drain body
Installed underneath sink hole. Plumber connects to plumbed drain.

Care Instructions

SWEDIA stainless steel sinks are made from 304 (18/10) surgical grade stainless steel with a perfect composition to both promote shine and resist rust. They are extremely durable but can scratch or scuff with normal use – this is normal and the high quality stainless steel should maintain an attractive shine if cared for. If desired, scratches can be blended in using the fine (white) 3M Scotch Brite pad and Inox cream (wipe with grain and clean thoroughly)

Cleaning

- Clean the sink regularly with soapy warm water. Always rinse the sink after using cleaning products.
- Avoid solvents, alcohol, bleaching or acidic products, harsh chemicals and abrasives (cleaners and steel wool products) as they may irreparably damage the product surface
- Wipe the surface of the sink with a gentle cloth to remove liquid residue.

Care

- Do not cut food directly on the surface
- Some foods after prolonged periods can damage the surface: e.g. foods and juices that contain acid or vinegar

Limited Lifetime Warranty

SWEDIA (ABN 48 104 411 314) offers a limited lifetime warranty on all its 1.5mm thick handmade sinks guaranteeing that they are free of defects in material and manufacture.

SWEDIA will provide a replacement or repair at its discretion free of charge for any SWEDIA hand made 1.5mm sink presenting defects under normal domestic residential use. Associated accessories and strainers have a standard 12 month warranty.

This warranty is valid for the original purchaser only as long as the product has been handled with care, installed as per the instructions, and the care instructions observed. To claim under this warranty claim must report the claimed defect to Swedia within 10 business days of discovering the defect. This warranty will be voided if the product is used for commercial use or for a purpose for which it is not designed.

Normal wear and tear, damage, incorrect installation, misuse, or modification will not be covered under this warranty. Scratches, stains, chips, dents, damage and gloss reduction are consequences of use and not defects covered by this warranty.
